PROFESSIONAL SUMMARY

Motivated B.E. Computer Science & Engineering (AI & DS) student with hands-on experience in front-end web development. Built and deployed a fully functional responsive e-commerce website (ShopEase) during Web Development Internship using HTML5, CSS3, and JavaScript. Skilled in responsive design, DOM manipulation, interactive UI features, and data analysis with Python. Eager to contribute to full-stack web development projects in a dynamic organization.

EDUCATION

Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya (SCSVMV), Kanchipuram

B.E. Computer Science & Engineering (Artificial Intelligence & Data Science)

Expected Graduation: May 2029 | CGPA: 8.95/10

PROFESSIONAL EXPERIENCE

Web Development Intern | Sysslan IT Solutions | June 2026 – July 2026

- Built and deployed a fully responsive e-commerce website (ShopEase) from scratch using HTML5, CSS3, and JavaScript (ES6)
- Implemented semantic HTML, modern responsive UI, reusable product cards, category filtering, and real-time product search
- Developed interactive features including shopping cart with quantity management, local storage persistence, checkout workflow, and form validation
- Applied front-end best practices in DOM manipulation, event handling, and mobile-first responsive design for polished user experience

Data Science Intern | Cognifyz IT Solutions | April 2026 – May 2026

- Performed end-to-end data analysis on restaurant dataset using Python, Pandas, and Matplotlib in Google Colab
- Conducted data exploration, preprocessing, feature engineering, descriptive analysis, and geospatial visualization
- Generated actionable insights on pricing trends, impact of online delivery & table booking, and restaurant distribution patterns

PROJECTS

ShopEase – Responsive E-Commerce Website | HTML5, CSS3, JavaScript (ES6)

Live Demo: lnkd.in/g84ZZw8e | GitHub: lnkd.in/gSWx4faf

- Developed a complete front-end e-commerce platform with product browsing, real-time search, category filtering, cart management, and checkout process
- Implemented local storage for cart persistence and fully responsive design optimized for mobile and desktop users

Student Dashboard – Academic Performance Tracker | Python, Streamlit

Live Demo: lnkd.in/gn6QMCpF

- Built an interactive dashboard for students to store marks, auto-calculate totals/averages/percentages, and visualize performance with graphs
- Added secure login, profile management, record download functionality, and responsive clean interface

Medical Assistant Website | Project Vega'26 Hackathon | UI/UX Developer

- Contributed to UI/UX design of a medical records management web application focused on secure data handling and accessibility

TECHNICAL SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6), Python, C, C++

Tools & Libraries: Pandas, Matplotlib, Streamlit, Git & GitHub, Google Colab, Local Storage, DOM Manipulation

Core Concepts: Responsive Web Design, Event Handling, UI/UX Design, Data Analysis & Visualization, Front-End Best Practices

CERTIFICATIONS & ACHIEVEMENTS

- Cisco Python Essentials 1 | Honours Diploma in Computer Applications (HDCA) | C Training – IIT Bombay (97.5%)
- Python 3.4.3 – IIT Bombay (90%) | Workshops: Klizer AI, Freedom with AI, Data Science with Python (Scaler), Full Stack Development
- Participated in Project Vega'26 Hackathon (Medical Assistant Website – UI/UX Developer)
- 1st Prize – Essay Competition, SCSVMV University | Tech Quiz: Techblaze'26 & FestX'25
